5:00pm at Town Hall

Attending: Loren Schleusener, Brock Bailey, Wendy Von Haden, Ryan Pierce, Tanner Kuehl, Joe Rezin, Dave Zinke, Al Bernhardt, Jim Falkner, Brendan Smith(via Teams), Jay Wheaton(via Teams), Amanda Felber(via Teams)

Call to Order at 5:00 pm

Jay from Mead and Hunt gave an update on the ARIP project. Tanner from Gerke's feels the project is a little ahead of schedule at this point. Jay asked if there were concerns with the wetlands/soft spots. There is some concern with the fill that has been needed so far. It was asked if they would want to start Phase 2 and use some of that fill for Phase 1. Tanner and Jay will look at this and discuss again next week.

Patrolman's Update

Roads – Ryan started doing some shouldering on a few roads. Going to start patching as soon as it warms up enough. He talked to Kuehl's on Flint about helping get the water out of the yard/ditch, this will be minimal help from the town. Still need to make a decision on Forest Ave. Brendan talked to Svet about Forest and asked for a bid to repair the 100 "bad" yards. Also have the option for chip seal. Forest will be discussed more on Monday. Yield signs in Putter's Ridge will be talked about on Monday. The stop sign on Elliot by Ellsworth is hard to see, Loren mentioned that the right of way may need to be cleaned out. Ryan asked about a stop ahead sign. Terry Lamb asked about a culvert on Elk Road. If it's a driveway culvert, it would be the owner's culvert and responsibility.

Jim Falkner asked about the road markers in the cemetery. The road markers can be pulled because this project is not going to be completed this year.

Ryan got an estimate on roofing at the town shop. He is also getting estimates on the doors.

Equipment/Vehicles - had a hydraulic leak on the tractor. John Deere was there quickly to fix it.

Recycle Center - Paul and Dave are both gone Saturday and Monday. Scott and Ryan are going to fill in
